
PROJECT MANAGEMENT TRAINING PROPOSAL

Importance of project management

Career opportunity knocks as the need for project talent continues to grow. Research indicates that employers will need to fill nearly 2.2 million new project-oriented roles each year through 2027. This means skilled project managers will be in high demand.

Our Proposal

Our project management training equips learners with the knowledge and discipline required to effectively plan, manage, execute, and control projects regardless of industry.

Learners will discover all about the most popular project management methodologies that help organizations deliver successful projects.

The course covers new trends, emerging practices, tailoring considerations, and core competencies required of a Project Management professional. Placing a greater emphasis on strategic and business knowledge, this course also includes a new section on the role of the project manager in both large and small companies.

Features of course

- 35 contact hours/PDUs with certificate
- 12 hands-on projects, 14 simulation test papers
- 4 industry case studies, 20 industry-based scenarios

Note - Our project management training covers 100% syllabus of PMP.

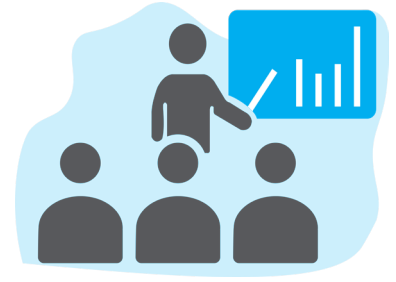

PMP is an internationally recognized professional designation offered by the Project Management Institute. It is an essential professional requirement for senior project manager roles across all industries. The course is best suited for : Project Managers, Associate/Assistant Project Managers, Team Leads/Team Managers, Project Executives/Project Engineers, Software Developers, any professional aspiring to be a Project Manager.

The PMP delivers value far into learner's career. CIO magazine ranked the PMP as the top project management certification because it proves learner have the specific skills and experience employers seek. Certified PMPs report earning up to 25% more than non-certified project management professionals.
